It is understood that this application is granted for underground waters as applied for and that the same forms no part of the Humboldt River and on the basis that the pumping of water from the underground source applied for will not detract from the water supply of said Humboldt River. It being difficult, if not impossible, to determine what effect, if any, the pumping of water from the proposed well will have upon the flow of the Humboldt River, the approval of this application is made with the understanding that the State by the granting of this permit reserves the right to regulate the use of water so as to protect all prior rights, and that the applicant agrees to the terms of this permit. It is further understood that the application would not be approved at this time for waters which would affect the flow of the Humboldt River, and that if it is found to affect the flow of the Humboldt River upon the completion of works, the permit is to become void upon the determination of that fact by the State Engineer, subject however, to the usual appeal to the Court for judicial determination. In issuing this permit it is assumed that the waters applied for are
